**LifeSpring Awarded \$1.4 Million Contract for  
Substance Abuse Treatment Services**

*Award Expands Services at Turning Point Center*

JEFFERSONVILLE, IN—(March 28, 2011) LifeSpring Inc. is pleased to announce a two-year award from the Indiana Department of Mental Health and Addiction to expand services at Turning Point Center.

Located on LifeSpring's Recovery Campus, the Turning Point Center is a twenty-seven bed facility providing substance abuse detoxification and residential services. Due to restrictions on traditional funding streams, the facility typically only serves nine clients at a time. The award from the Indiana Department of Mental Health and Addiction, valued at over \$1.4 million, will provide subsidies for 18 beds to serve clients unable to pay for treatment.

LifeSpring Inc. President/CEO, Dr. Terry L. Stawar, stated, "LifeSpring, and its Board of Directors, is extremely pleased to be able to offer this additional resource for substance abuse treatment to our community. We hope to work closely with local courts and correctional programs to maximize the effectiveness of these new treatment opportunities."

The treatment beds will be available to any resident of the State of Indiana, provided the individual meets diagnostic criteria and there is bed availability.
